PROJECT

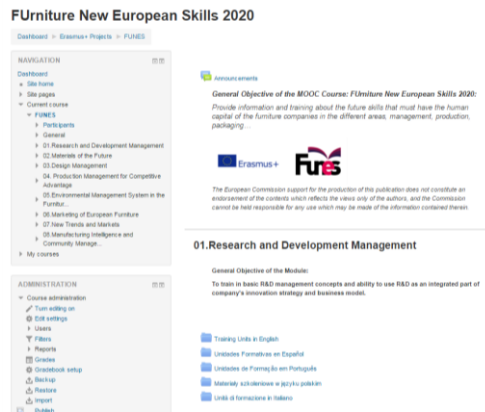

014-1-ES01-KA202-004883,  
FURNITURE NEW EUROPEAN  
SKILLS 2020-FUNES-

## 1.- 6<sup>th</sup> meeting of the project

On 19<sup>th</sup> – 20<sup>th</sup> April 2017 it was held the sixth meeting of project in Cantù, Italy.

This meeting lasted two days and was developed at the Fondazione Enaip Lombardia Centro Servizi Formativi di Cantù who was the coordinator of the meeting.

The objective of the meeting was to analyse and revise the modules elaborated and uploaded in the Moodle platform.

**01. Research and Development Management**

**General Objective of the Module**

To train in basic R&D management concepts and ability to use R&D as an integrated part of company's innovation strategy and business model.

Training links in English

- Unidades Formativas en Español
- Unidades de Formacao em Português
- Materiali scolares in italiano
- Unità di Formazione in Italiano

During this meeting partners revised the aims of each module, and prepared all the activities to do the pilot course, the evaluation of this pilot course, and how we need to analyse the results of the evaluation, to improve if it is necessary some contents in the elaborated material.

In this moment the project is arriving to the end.

We need to work a lot to translate all the documents, because at the end all the documents have more pages that agreed at the beginning, because they have a lot of contents and information. Each training module could be a different course related with a new competence to the furniture sector in the 2020 year.

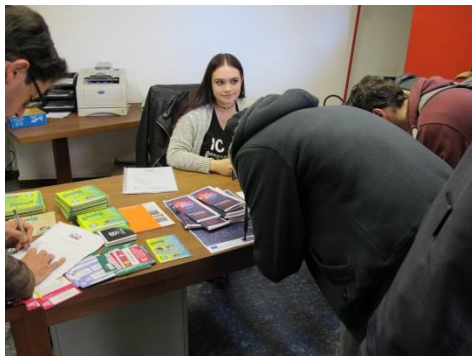

Other agreements decided during the project are the agreements related with the pilot course, and the questionnaire to evaluate the pilot course, with the activities to do to inform about the aim of the course, and the aims of the project and finally the aims of this pilot course. To obtain the best evaluation to finalize with the highest level of quality the project.

## 2.- Multiplier event of IO2

During this meeting all partners have participated in a Multiplier Event organized by ENAIP. The aim of this Multiplier Event has been to present the material elaborated related with each new and future qualification defined by the partners during the project.

During the Multiplier event the manager of the centre introduced the importance to know the future competences for the furniture sector, and to have these competences to work in the future factories.

She emphasized about each one of the competences defined, and their importance.

The training units presented were:

- R&D and innovation strategy
- European R&D project support mechanisms
- New materials and their technical specifications in the furniture industry in Europe by 2020
- Lean Manufacturing
- Competitiveness in production systems
- Design management as part of company's strategy
- Product Design

- Eco- design in the furniture sector
- Evolution of the environmental management in the enterprise: ISO 14000:2015
- Ecolabels
- Life-cycle assessment
- European Best Creativity-History
- European Best Creativity-Form and Aesthetic
- European Best Creativity-Materials and Technologies
- Valorisation of an enterprise in terms of its own internationalization
- Market's analysis for internationalization
- Insertion in foreign markets
- Additive Manufacturing
- Introduction to Industry 4.0
- Information Technologies and Communication in Industry 4.0
- Community Management

During the Multiplier Event, some words about the 30<sup>th</sup> Erasmus+9 anniversary were highlighted.

Besides, two local entrepreneurs were invited to speak.

Finalized the pilot course, the partners Project will meet in the final meeting in Valencia meeting organized by FEVAMA and during this final meeting the consortium will present all Intellectual Outputs.

A lot of students participated in the multiplier event.

Really it is very important for this project the level of collaboration between the partners, with the aim to have a very good material, with the news qualifications for the future workers into the furniture sector
